

MITCHELL HEADS FOOD BODY; SENATORS WIN

After Flatly Refusing to Accept Perkins, State Industrial Commissioner Is Ratified Unanimously When Nominated By Governor—Schurman and Wieting Retained—Perkins Talks.

FIGHT IN SENATE IS BITTER

Albany, Oct. 2.—John Mitchell, chairman of the State Industrial commission and former president of the United Mine workers, was nominated chairman of the State Food commission by Governor Whitman today, after the senate had rejected for the second time the appointment of George W. Perkins of New York. Mr. Mitchell's nomination was confirmed unanimously. The senate, without a dissenting voice, ratified the appointment of President Jacob Gould Schurman, of Cornell university, and only one vote was recorded against Charles A. Wieting of Cobleskill, and the other members of the food commission.

The presentation of Mr. Mitchell's name was the signal for a legislative love feast which was in marked contrast to the bitterness which attended the senate's refusal by a vote of 25 to 20 to confirm the Perkins nomination. Senators who had opposed each other in the fight over Mr. Perkins united in lauding the character and attainments of Mr. Mitchell, while at the same time they complimented the governor for the wisdom of his selection.

Adjourn Immediately.

Final adjournment of the extraordinary session was taken immediately after the confirmation of the Mitchell nomination.

The roll call on the Perkins confirmation today differed but little from that of Sept. 7.

Republicans voting for Mr. Perkins' confirmation were: Senators Argersinger, Burlingame, Carson, Gibbs, Gilchrist, Graves, Knight, Lockwood, Mullan, Murphy, G. F. Thompson, C. L. Thompson, Walters, Wellington, Whitney, Wicks, Valverton, 17. Democrats for Mr. Perkins were: Dowling, Sheridan and Walker, three.

The votes against confirmation were cast by E. R. Brown, Cromwell, Emmons, Halliday, Hill, Lawson, Marshall, Newton, Ottinger, Robinson, Sage, Slater, Silvers, Towner, Walters, Republicans, 14. Boylan, Carroll, Cotillo, Cullen, Downing, Dunham, Foley, Heggen, Koenig, and Wagner, Democrats, 10.

The absentees on the Perkins vote were A. P. Brown, Republican, and Daly and Ramsperger, Democrats.

Say Governor Misled People.

The debate which preceded the vote abounded in personalities, in which Mr. Perkins' financial and industrial career, and the action of the Governor in attempting to place him at the head of the food commission was bitterly assailed by one faction, while Majority Leader Elton R. Brown was the main point of attack by the Perkins supporters.

Several senators, including George B. Wellington of Troy and George F. Thompson of Niagara, who voted for confirmation, expressed their regrets at what they termed the false charge in one of Mr. Perkins' state-wide advertisements that Senator Brown was responsible for the delay in making effective the food conservation law.

"When the senate previously rejected the Perkins nomination," said Senator Sage in opening the forensic battle, "Governor Whitman requested a recess of at least ten days. The executive might have called the attention of the people to the fact that Mr. Perkins' statement that Senator Brown was responsible was a misstatement. This was not done. The delay was for the purpose of giving the governor an opportunity to name a new commission, but after that delay the same names have been sent in again.

Sugar Plums and a Switch.

"We all know exactly what has been done all the time the senate was in recess. We know the pulling and hauling; we know the gifts that have been offered. It is remarkable that the members have stood out as well as they have.

"The governor is in the position of Santa Claus; he has sugar plums in one hand and a switch in the other. The senate has no gifts to bestow. The senate once had said: 'Mr. Perkins is unfit for this position.' I trust it will continue to have a little self respect and will refuse confirmation."

In speaking for confirmation, Senator Ross Graves of Buffalo, a Republican, charged Majority Leader Brown with "conspiring with Tammany hall to defeat the efforts of a Republican governor to protect the people from the extortion of the food speculators."

Calls Brown Insincere.

This, said Senator Graves, "has been a campaign of sham and insincerity. The majority leader at the last session declared that he was opposed to Mr. Perkins because Mr. Perkins was the organizer of the International Harvester trust. Think of it! The chief apostle of the divine right of property, the foremost champion and defender of the sanctity of the vested interests, declared he is opposed to this wicked man because he is identified with a wicked trust. And that is typical of this entire campaign of sham and insincerity."

Sensor Brown was on his feet the instant Mr. Graves concluded. He declared that the member from Buffalo

Suffragist Leader, Mrs. Havemeyer, Wants Vote for Women First.

Baltimore, Md., Oct. 2.—Mrs. George Havemeyer of New York, a member of the advisory council of the National Woman's party, in an address before a meeting of 150 suffragists here today, appealed to the suffragists not to lift a finger in the aid of the Liberty loan.

"I haven't the nerve to ask money," she said, "for a battle for democracy when we who demand true democracy are thrown into the jails for doing so." The suffragists present approved her words and some of them declared their purpose to follow her example. Mrs. Abbey Scott Baker of Washington, an official of the National Woman's party, urged the women to boycott the loan. She said she had three sons in the service of the government, but that made no difference.

THIRD CONTINGENT STARTS MOVING TODAY

TIME OF NEXT CALL STILL UNCIDENT SAYS BAKER

Washington, D. C., Oct. 2.—The third contingent of national army men will begin moving tomorrow to the 16 cantonments, where approximately one-half of the 887,000 selected men called out by the President, already have been mobilized. Quotas now ready to leave home vary greatly, ranging from 17 to 40 per cent of the full state quotas, with a general average of between 20 and 25 per cent. Modification of previous quota plans was necessary because of the conditions at the cantonments and the availability of equipment. Some cantonments are much farther advanced than others and can accommodate a larger percentage of men.

No Decision on Second Call.

Definite figures are still lacking as to the number of selected men to be transferred to the National Guard, aviation service, medical corps or other branches of the army that will have to be filled up to war strength. It is certain, however, that the men remaining at the camps will not be sufficient to form the 16 national army divisions at full strength.

Secretary Baker indicated that no decision had been reached as to when a second call will be made. There are many deficiencies to be filled up in the first draft, physical examination of the selected men by army doctors at the camps having resulted in many rejections. There appears to be some evidence of undue leniency by civilian doctors who examined the men in some sections, probably due to the local boards desiring to make a good showing.

Await Congressional Action.

Decision of the war department on the suggestion that the remaining seven million registered men may be examined immediately for service in order that they may have knowledge of when to expect a call to the colors and arrange their affairs accordingly, awaits action by congress on the war deficiency. Funds to carry out the project are contained in that measure.

Secretary Baker said today that of some 35 governors who had been asked if they believed it wise and expedient to proceed with the examination of all registered men, only two were opposed to the plan. Those two did so on the ground that it would make too great a demand on the services of the members of the local boards, most of whom are serving without pay. The department, the secretary announced, had not reached a decision as to the wisdom of the plan and he indicated that none was to be expected until congress had acted and shown its will in the matter.

SENATE APPROVES REPORT ON WAR TAX

MEASURE NOW GOES TO WILSON; BUT TWO BILLS LEFT

Washington, D. C., Oct. 2.—Congress finished its work on the great war tax bill late today when the senate following the example set yesterday by the house adopted the conference report without a roll call. More than two and a half billion dollars of new taxes are levied by the measure which has been in the making since last April.

As soon as the bill is engrossed and signed tomorrow by Vice President Marshall and Speaker Clark, it will be sent to President Wilson who is expected to sign it immediately.

Senate discussion today was brief, participated in by few members, all of whom realized the futility of opposition. Most of the criticism was on the second-class postal increases.

The speedy action on the conference report raised members' hopes for adjournment of the war session by Saturday or not later than next week. The administration sailors and soldiers' insurance bill, which has passed the house, will be brought up tomorrow in the senate. Its disposal in a few days is anticipated. The only other measure the leaders expect to put through before adjournment is the eight billion dollar deficiency appropriation bill, whose conferees expect to agree tomorrow and secure adoption of the report with peremptory debate.

HAIG HAS HUNS GUESSING HARD

Strong German Attacks Net Only Two Positions For Prince Rupprecht's Forces

RUSSIANS GAIN MILE

Petain Repulses Vicious Tenton Assaults—British Victory in Mesopotamia

That great nervousness over approaching events pervades the German front in Flanders is indicated by the infantry attacks the forces of Crown Prince Rupprecht of Bavaria daily are throwing against Field Marshal Haig's army on the Ypres salient.

These attacks are being centered upon the apex of Haig's salient in the line, which is pointing dangerously toward the Ostend-Lille railway, the ultimate gaining of which by the English, Scotch and Australian contingents would work sad havoc to the replenishing of supplies of the German line to the south from the naval bases at Ostend and Zeebrugge.

German Attacks Repulsed.

In storming waves of great strength the Germans have made valiant efforts to wrest from the British positions captured from them in the recent offensive, but everywhere, except at two small points, they met with decisive repulse under the hurricane of fire which swept against them from guns of all calibre, strewn the ground with their dead and wounded. Numerous prisoners also have been taken by the British, and to a man they have evinced gratification that they are safe from the inferno of burning shells, which the British without cessation are pouring in upon the German holdings.

The big guns of the Germans have not been idle during the fighting, but their strength is in no way comparable to that of the great array that Haig has set up for the purpose of pounding the German entrenchments, for warding off attacks and for screening his infantrymen as they surge forward on new exploits.

Vicious Assaults on French.

As yet there has been no indication that the British commander in chief has the situation worked out to a point where he is prepared to use his infantry for another smash across No Man's Land. Meanwhile the French and the Germans are engaged in violent artillery duels along the Aisne front and in the Verdun sector, in both of which sections General Petain's army has again been forced to withstand successively vicious attacks from the troops of the German Crown Prince, especially near Craonne and Beaumont, and between Hill 244 and Samogneux. Near hill 344 the Germans entered a French position, which later was recaptured in a counter attack.

Russians Gain a Mile.

On the northern front in Russia, in the region south of Riga, the Russians are keeping up their offensive against the Germans. Following up their attacks of Sunday, in which gains of 800 to 1,000 yards were made, the Russians again have surged forward and beaten back the enemy for a distance of one mile south of Kronenberg-Spital-Grounbuli sector. Quiet still prevails on the eastern front farther south and in Galicia and Rumania.

In Mesopotamia, the British victory over the Turks at Ramadiah, west of Bagdad, was greater than at first reported. In addition to capturing the town, nearly 4,000 were made prisoner and large numbers of guns and quantities of war stores were captured. Besides heavy casualties were inflicted on the Ottomans.

British and French airmen are continuing their raids against German positions behind the lines, and the French airmen are carrying on further reprisals against German cities and towns for the bombardment of open French settlements. Large quantities of explosives have been dropped by French airmen on Stuttgart, Frankfurt-am-Main, Coblenz and Treves, while in conjunction with British aviators, railway stations, airdromes, munitions depots and military encampments have been effectively bombed.

SCALPERS OFFER TICKETS

Though Seats Are Not Yet on Sale for Series; They Ask Deposits.

Chicago, Ill., Oct. 2.—With the arrival tonight of the first out of town contingent for the world series, the prices of tickets for the three Chicago games were sent skyward by scalpers, who insist they will be able to supply purchasers who failed to get seats through the regular channels.

Although the reserved seat tickets and the box seats will not be distributed to purchasers until Thursday, scalpers are asking deposits on tickets. They are asking \$50 for \$5 box seats and \$35 for \$1.50 grandstand tickets.

KILLED IN FOOTBALL GAME.

Cambridge, Mass., Oct. 2.—The first fatality of the football season occurred here today when Francis Burns was killed during a practice game between teams made up of the Rindge Technical High school football squad. Burns' neck was broken when he tackled a player who was running back a punt.

Airmen Destroy Bridge; Derail Engine and Train

London, England, Oct. 2.—Dispatches from Holland gathered by frontier correspondents say that the allied airmen are playing havoc with the German lines of communication and military stations in Belgium.

On Sunday night, according to statements, communications with Ghent had been interrupted. Another correspondent says that a bridge was destroyed just before the arrival of a military train, the engine of which fell through the opening, derailing several cars.

ARREST TWO MORE MEMBERS OF I. W. W.

INDICTMENT SAYS 200,000 SEEK UNLAWFULLY TO GAIN CONTROL

Chicago, Ill., Oct. 2.—Two more arrests of members of the I. W. W. for whom the federal government officials have been looking since their indictment a week ago, were reported today. They were Grover H. Perry, taken in Salt Lake City, and John Ahleen, arrested in Minneapolis.

Copies of the indictment returned by the grand jury were made public today. They described the organization known as the I. W. W. as composed of 200,000 persons, mostly laborers in the industries necessary to the existence and welfare of the people of the United States, transportation, mining, meat packing, lumbering, farming, live stock, fruits, vegetables, and cotton raising.

The indictment further defines the members of the organization as calling themselves the "workers" and the "proletariat," and describing all other classes of society as "capitalists," the "capitalist class," the "master class," "the ruling class," "exploiters of the works," "bourgeoisie" and "parasites."

The purpose of the organization, the indictment continues, was to abolish the latter classes and to gain for the former class control and ownership of all property, "such abolition to be accomplished, not by political action or with any regard to right or wrong, but by the continual and persistent use and employment of unlawful and forcible means and methods, involving threats, assault, injuries, intimidation, and murders upon the persons, and the injury and destruction of property of the other class, the forcible resistance to the execution of all laws and finally the revolutionary overthrow of all existing governmental law in the United States."

Plans were designed particularly to take advantage of the opportunity of the desire and necessity of the United States expeditiously and successfully to carry on its war and by the consequent necessity for all laborers to perform their tasks.

GERMAN SOLDIERS BALK AT SIEGES

AS RESULT MEN IN FRONT LINES DON'T GET NECESSARIES

British headquarters in France and Belgium, by the Associated Press, Oct. 2.—The badly punished German troops east of Ypres today were largely resting on their arms after reverses suffered yesterday, when they attempted, in a series of fierce counter attacks, to drive the British back. Possibly the designation "resting" is a misnomer, for the enemy was sitting under a terrific bombardment from hundreds of big guns, which were deluging his back and forward areas with high explosives. Many of the nerve racked, half stunned German prisoners who have lived under these bombardments can tell of the tragedy now being enacted along the German front in the region of Belgium.

Thanks to the German counter attacks, there has hardly been a moment's cessation of the artillery fire since last Wednesday.

Captured Germans say that their forward defenses have been greatly demoralized by this ceaseless pounding. Relief and ration parties venture out to be turned back or to make their miserable way forward by circular routes to the men holding the advance shell holes who have often been compelled to hold on without water or food. Badly needed ammunition has never reached its destination.

Every approach of the German line is covered with British guns. Naturally the question arises what effect all this is having on the morale of the German troops. It is generally admitted among the prisoners that the morale of their men has deteriorated since the beginning of the battle in Flanders. Divisions which have been used in one siege some time recent being used a second time in this position. This marks a striking change from the former attitude of the German troops who have worked as unthinking machines to carry out the orders of their officers.

Meanwhile the morale of the British troops is daily rising.

SWEDISH MINISTRY RESIGNS.

Stockholm, Sweden, Oct. 2.—The Swedish ministry has resigned but King Gustav has requested the ministers to retain their portfolios for the present.

STATE SENATOR CAUGHT IN NET

Pennsylvania State Senator Bare Named in Philadelphia Political Feud

HAD GUNMEN'S PAY

Congressman Bare Also Accused—Mayor Said to Have Refused to Heed Warning

Philadelphia, Pa., Oct. 2.—State Senator Edwin L. Bare was today named as the man "higher up" who was to furnish the money to bring gunmen from New York for election work in the fifth ward here on primary day, September 19, when a policeman was killed.

Congressman William S. Bare, the senator's brother, was named as giving assurance that the money would be forthcoming from Isaac Deutsch, the man who is alleged to have engaged the gangsters.

The Bare brothers, who have made millions in city contracts, were brought into the case through sensational testimony by Samuel G. Maloney, at a hearing given to Mayor Thomas E. Smith and eight others charged with conspiracy to murder and other crimes in connection with the fifth ward killing.

Maloney, a former Republican faction leader in the fifth ward and now head of the local branch of the Val O'Hare Detective agency, was the star witness at the hearing.

Bares Deny Accusation.

Tonight, Senator Bare, who with his brother, the congressman, is the leader of the faction opposed to that headed by United States Senator Boies Penrose and State Senator James P. Nichols in this city, gave out a statement in which he said that everything Maloney swore to so far as it concerned the Bares was an "absolute lie" and is only part of the general frame up about in a public statement about two days ago.

Prior to Maloney's recital of alleged conditions in the fifth ward, Isidore Stern, a member of the legislature from that ward, told how he had warned Mayor Smith the night before the primaries on the long distance telephone of possible bloodshed; how he had engaged a special train to bring the mayor from Atlantic City for the purpose of restoring order, and how the mayor replied that "Stern could not put any stuff like that over on him."

Mayor Would Go Dim.

James A. Carey, the McNichols leader in the fifth ward, who was opposed by Isaac Deutsch, the Baer candidate, appeared on the witness stand with his head almost completely swathed in bandages as the result of the blackjacking he received. Carey told of an interview with Mayor Smith in which he said the Mayor told him he was against him and would go the limit to beat Carey, because he, the mayor, wanted a council body favorable to him.

Maloney testified that Deutsch came to his office and wanted to engage 18 "hunky" men for work in the fifth ward. Deutsch, according to Maloney, said a gang of men were coming from the tenth ward to "get" him.

Maloney said that Deutsch informed him that Senator Bare would furnish the money, and when he went to Bare's office he saw Congressman Bare, who told him, the witness said, that Deutsch was supplied with funds and that everything would be all right. Maloney testified that William Finley, chief of the Bares, who was in Bare's office at the time, told him the same thing.

TAXES ELEVATE SALOONS

Wholesalers Say They Welcome Taxation; Drinks to Cost More.

New York, October 2.—Wholesale liquor dealers welcome additional taxes imposed on intoxicants through recent federal and state legislation; stand ready to pay still higher revenues; and believe in the elimination of many hundred retail establishments unable to meet the increased tax burdens, according to members of the New York State Wholesale Liquor Dealers' association, who met here today to consider business matters related to the new tax measures.

Increases in the prices of drinks will be necessary because of recently added taxes, members declared. Suspension of business by several hundred retailers in Greater New York and by many others throughout the state causes the association no concern, the wholesalers asserted, for by their elimination the general tone of the saloons remaining in business will be elevated.

LEVISKY BOXING INSTRUCTOR.

TREASURY NOTES OVERSUBSCRIBED

Taking of Whole Issue of \$1,250,000,000 Adds That Much to Second Loan

LOAN SELLING FAST

New York City Has Taken Over \$50,000,000—Teachers to Instruct Pupils

Washington, D. C., Oct. 2.—Liberty loan financing was marked today by the oversubscription of the largest issue of short time treasury certificates of indebtedness put out by the government, \$400,000,000. The certificates bear four per cent interest, mature December 15, and may be redeemed sooner upon 10 days notice. The amount of the oversubscription was not stated by the treasury tonight, but the taking of the entire issue, which is \$100,000,000, or one-third greater than any previous offering with a margin to spare is regarded as presaging the success of the second Liberty bond issue.

Today's offering of the certificates brings the total up to \$1,250,000,000, with the proceeds of the latest certificate issue available the government will have anticipated the second Liberty loan receipts to the extent of \$1,250,000,000 and much of the money will have been paid out.

The issuance of certificates of indebtedness in blocks from \$200,000,000 to \$400,000,000 is highly regarded by treasury officials as a method of obviating stress in the money market, which might result from a sudden withdrawal from circulation of considerable proportions of the large loan.

\$50,000,000 in New York City.

New York, Oct. 2.—More of the machinery for selling the second Liberty loan was put in operation in New York city today and unofficial estimates of the amount subscribed in the metropolitan district during the first two days of the "drive" place the total between \$50,000,000 and \$60,000,000. Campaign managers declared the addition of amounts subscribed in outlying portions of the reserve district, from which reports have not been received, would swell the figures by many hundreds of thousands of dollars.

Prominent among the new agencies through which appeals are to be made announced today is the entire state educational system. Liberty loan meetings are planned for each school room in the state during which teachers will inform scholars of the purposes of the loan and the desirability of the bond as an investment.

Corporations whose pay rolls amount to many millions of dollars weekly, have been banded together through the formation of an industrial committee. This body will direct an independent part of the campaign intended to reach the hordes of small investors—those who will buy bonds of \$50 and \$100, and whose subscriptions are greatly desired as evidence of the popularity of the bond.

Meanwhile the army of experienced bond salesmen continue their work vigorously. Their ranks will be augmented by many women who are to receive daily instruction in bond salesmanship from experts.

REVIVE RANK OF GENERAL

Purpose Giving It to Pershing and Other Chiefs of Staff.

Washington, D. C., Oct. 2.—Revival of the grade of full general is planned by the war department to provide suitable rank for Major General John J. Pershing, commanding the American forces in France.

It was learned tonight that Secretary Baker already has submitted the department program which includes provision for the title general to be held by the officers serving as chief of staff and the making of several lieutenant generals to the senate military committee and thus, legislation carrying it into effect, is to be pressed for prompt passage when congress reconvenes in December.

But four American army officers have been borne the title of general—Washington, Grant, Sherman and Sheridan and only a few have been lieutenant generals. Since General Sheridan died in 1883 the rank of general has been extinct.

EXTRA POWER FOR WILSON IN RECESS

PLAN ON FOOT TO RENDER UNNECESSARY EXTRA SESSION

Washington, D. C., Oct. 2.—After a call at the White House Monday Senator Lewis said he would propose passage of a bill giving the President full power to do anything during the forthcoming recess of congress that may be called for by any sudden emergency. "I told the president," said the senator, "that we could get the war revenue bill passed finally this week, pass the soldiers' insurance bill next week, and adjourn by the end of the following week. The president is anxious that the insurance bill pass that the families of the soldiers can have security and the soldiers have peace of mind."

"I think it would be wisdom for congress to pass a law giving the President full power to do anything in the recess of congress that may be called for by any sudden emergency, whether of an international nature or home price fixing of commodities. This would prevent calling congress before the regular December session."

The President expressed himself as deeply appreciative of the generous course of congress toward him particularly in its refusal to hamper him in any way in any of his executive functions or of intruding party opposition or personal politics against necessary measures. The President is satisfied with our war situation and our readiness for action and has full confidence in American success.

FINANCIAL AND COMMERCIAL

The New York Markets.

New York, Oct. 2.—The greater depression which attended today's stock dealings was again mainly due to familiar causes or conditions, namely steady liquidation of securities of a character heretofore sought by investors.

Recent severe recessions in rails were extended one to four points. New low records were registered by St. Paul, New York Central and Baltimore & Ohio.

In well-informed circles the belief still obtained that the selling emanated from foreign quarters. Industrials and various shares included in the war group were plainly inclined to shake off the pressure against rails but yielded with the general course until the final hour when gradual improvement set in, the market changing from its heavy tone to one of moderate irregularity.

United States steel's course was again indicative of the general movement. From its low level of 108 1/2, steel rallied two points, closing at 110 1/2. Coppers were irregular but shipments and recognized pool shares were steady to strong.

Call money was stabilized by the money pool, but time funds were again in scant supply, both quotably unchanged. Bonds were heavy on moderate trading, the Liberty issue selling at 99.94 to par.

United States coupon 3's rose five-eighths per cent on produce.

A Flying Collision.

The author of "Tales of the Flying Services" tells of a strange accident that occurred in France.

Not long ago, he says, I ran across an aviator I know looking very much annoyed and with one eye seriously obstructed by a large contused swelling on his cheek bone. Thinking that he had had a smash of some kind, probably a bad landing in which he had been pitched against the front of his machine, I asked what had happened.

He explained that about six hours earlier he was starting out on a fast biplane and was going full speed on the ground in order to get a good jump into the air when he met a large sized bumblebee going in a hurry in the opposite direction.

"You see," he explained, "I was doing about sixty knots due east and he was doing between thirty-five and forty knots due west, and he was a large bee, and the impact was something terrific. And," he added vindictively, "I hope he has spilled all his honey and that he's still unconscious!"

Sirius and the Dog Days.

The dog days are reckoned about forty and are set down in the almanac as beginning on July 3 and ending Aug. 11. In the time of the ancient astronomers the remarkable star Sirius, called also Canicula, or the dog star, rose heliacally—that is, just before the sun—about the beginning of July, and the sultry heat which usually prevails at that season, with all its disagreeable effects, among which the tendency of dogs to become mad is not one of the least disagreeable, was ascribed to the malignant rays of the star. Owing to the precession of the equinoxes the heliacal rising of Sirius now takes place later in the year and in a cooler season, so that the "dog days" have not now that relation to the particular position of the dog star from which they obtained their name.

Soft Iron Horseshoes.

In Spain very few horseshoers have forges in their shops. They make their shoes without the aid of a fire, a possibility largely due to the pure, soft, ductile iron primarily manufactured with wood and charcoal.

TO SECURE FUNDS.

Milford Red Cross Chapter Divided Into Groups for Work.

Milford, Oct. 2.—A meeting of the officers of the Milford branch of the Red Cross was held at the home of Mrs. W. R. Seiber Monday afternoon. The ways and means of raising money to carry on the work were discussed and it was decided to divide the membership list into four groups, each group to provide some means of securing funds. The list will be divided alphabetically, the first member to act as chairman. The lists will be read at the meeting Thursday. Mrs. W. R. Seiber, Mrs. G. G. Whitney and Mrs. George Mumford were appointed a committee to ascertain the needs of the Milford soldiers, and report at the next meeting. The members hope to be able to furnish our boys with socks or any of the other knitted articles needed.

Hop Crop Sold Monday.

Eugene Lake sold his 1917 crop of hops Monday to Dornett of Cobleskill for 75 cents per pound. This is the first sale in several weeks. Several unsold crops remain in the growers' hands here, the market having been a standstill for a couple of weeks.

NORTH KORTRIGHT NOTES.

Kortright Republican Electors Nominate Town Ticket Saturday.

North Kortright, Oct. 2.—Kortright Republicans held their town caucus Saturday afternoon at Noonan's hall, T. E. McCulley chairman. H. L. Eckert, whose record as supervisor of this town for two or three terms has been very satisfactory, was unanimously nominated to head the ticket again. W. H. Noonan, the present incumbent, was nominated for town clerk. For justices, T. E. McCulley and H. K. MacLaury; highway superintendent, Samuel Shearer; assessors, F. E. Van Dusen, Ferrie Lyon, Vernon Emory; collector, Hugh Gemmel.

Ill With Blood Poison.

W. K. Adair has been seriously ill with blood poison in his face and hands and also suffering with a boil on the back of his neck. His condition, however, seems improved, since his attending physician, Dr. T. L. Craig, lanced the boil.

A Generous Gift.

J. A. Rowland has generously offered to donate to the North Kortright Cemetery association a piece of land adjoining the cemetery and extending to the state road, providing it can soon be graded and Mr. Rowland exempted from further dues.

Leave For Knoxville.

E. R. MacLaury, who with his family has been spending some weeks in Kortright, has accepted a position as manager of the dry milk plant at Knoxville, Pa., and removed to that place Monday.

SIDNEY MONDAY CLUB.

Celebrates Eighteenth Birthday at Meeting Held Monday Afternoon.

Sidney, Oct. 2.—At the home of Mrs. Charles Spencer, Main street, yesterday afternoon, was observed the eighteenth birthday of the Sidney Monday club. It was also the occasion of the first club tea and the opening of the season of 1917-18. Mrs. E. O. Allen, the new president of the club, presided in a very graceful manner. In a few well-chosen words she extended her greetings and a cordial welcome to the members present.

Romance of Old Landmarks.

"Romance of Old Landmarks" was the title of a paper by Mrs. R. E. Carr. This was followed by discussion and a piano trio by Mrs. Bird, Mrs. Lines and Mrs. Clark. A much enjoyed social hour followed. The guests were invited to attend a Colonial tea. This was served in the large room on the second floor of the Spencer block. It was neatly decorated in Colonial style with the addition of the national colors. The dining table was elaborately set with rare old china, glass and silver and the guests enjoyed an old fashioned menu. At the close all arose and joining hands sang "Auld Lang Syne." As each

which he replaced.—Miss Marian Driesbeck, who recently injured her foot while alighting from a carriage, has been unable to attend her school as teacher, and has secured the services of Miss Ruth Hunt of Unadilla to teach for a time until she can do the work.—Mr. and Mrs. John Youmans, in company with a party from Bainbridge, started on an auto trip to visit points of interest through the New England states recently.—George Couse is making extensive improvements on his house, S. Night Classes Organized.

A night class in stenography, typewriting and bookkeeping was organized at the Sidney High school last evening with 17 members. Sessions will be held Monday, Tuesday and Thursday evenings and will be continued for the balance of the year and longer, if enough interest is taken to warrant. A small fee to pay for instruction, heat and light will be charged. Prof. Arthur Deane will have charge.

Track Causes Injuries.

While Joint Inspector L. J. TenBroeck and men were engaged in cleaning up the debris of the old O. & W. round house, which was destroyed by fire last spring, a rope with which they were pulling a pair of car trucks up an incline into a car broke and let the heavy truck fall back among the men. All escaped excepting Milo Butts, who was badly cut and bruised about the shoulders and hands, and Louie Palombo, whose leg was bruised.

New D. & H. Time Card.

A new time table went into effect on the D. & H. Monday. There are three changes of time of trains that are of local importance. No. 303 will leave Sidney at 6:16 a. m., instead of 6:31; No. 305 will leave at 10:08 a. m., instead of 10:18; and No. 308, the Binghamton fast train, will leave at 7:35 p. m., instead of 7:31. This latter change will allow connections with the O. & W. Mountain express.

Republican Caucus Held.

The Republican caucus for the nomination of town officers was held Saturday afternoon at Sidney Center. W. W. Bates received the nomination for supervisor; W. H. Pierce esq., for town clerk; A. M. Shotts, supervisor of highways; J. H. Vandervort and Alexander Edwards, assessors; E. G. Constable, collector. Fred D. Wilbur, overseer of the poor. The Democratic caucus will be held Saturday afternoon of this week at Municipal hall in this village at 2 o'clock.

Given Farewell Reception.

Miss Josie Mazzarella, a well known Italian young lady of this village, was given a reception Thursday evening

D. Keeler.—Mr. and Mrs. L. D. Meacham and Mrs. Sophronia Meacham of Hartwick and Mr. and Mrs. Perry Loomis of Oxford have been guests of Mrs. J. D. Brown.

MOUNT ORAWFORD

In Delhi, Beautiful Park at This Season of the Year.

Delhi, Oct. 2.—Mount Crawford, a part of the east side of this village, is now assuming its prettiest hues. An occasional red leaf tree, caused by the early frosts, lends additional beauty to its natural appearance. The village has expended but little in laying out walks or drives, but nature has done much to make this one of the loveliest of parks. The walks and rustic seats which Mr. Sheldon donated add to the comfort of a ramble through it.

The Milk Question.

Patrons here of the Borden and of The Sheffield Farms company are assured of the new league prices from October 1. This gives the farmer more for his milk, which is but just as the increased price of feed demanded it. It is fortunate that the matter has been amicably adjusted.

Local Mention.

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

Woman Thought She Would Die. Cured by Lydia E. Pinkham's Vegetable Compound.

Ogdensburg, Wis.—"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."—Mrs. ERRA DORION, Ogdensburg, Wis.

Physicians undoubtedly did their best, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

IN FIVE-MINUTES NO SICK STOMACH INDIGESTION, GAS

"Pape's Diapepsin" is the quickest and surest stomach relief.

You don't know what upset your stomach—what portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin to neutralize acidity and in five minutes you wonder what became of the indigestion and distress. Millions of men and women today know that it is needless to have dyspepsia. A little Diapepsin occasionally "sets the stomach sweetened, and they eat their favorite foods without fear. If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless antacid is Pape's Diapepsin which costs only fifty cents for a large jar at drug stores. It's truly wonderful—it stops food souring and sets things straight, so gently and easily, that it is truly astonishing. Your stomach will digest your meals if you keep acids neutralized.

THE IMPORTANT THING.

A trip of perhaps 50 miles, going and returning through some of the villages and hamlets of Otsego county a few days ago brought forcibly to attention many gardens which apparently started out well last spring, and which with even fair attention would have thrived amazingly. Along in July, however, the gardener seems too often to have laid down upon his undertaking. Weeds were allowed to choke out beans and corn and potatoes and cabbage, until now their gaunt and spindly stalks remain only as evidence of what, with the care which was their due, might have been accomplished.

It is a common and an unfortunate condition—that so often the ones who start out with the best of intentions and, perhaps as in the present instance, to serve a patriotic purpose fails to carry out the undertaking which so eagerly he began. It is a good thing to begin, but the important thing is to carry out the undertaking, and particularly in these days of storm and stress in the world. There has been much good work done, and the cause of humanity has been helped by the crops, which have been produced; but it is unfortunate that so many have failed to persevere.

The man with a hoe, however, is not the only American who in these days has often been lagging. There are soldiers lacking necessities today on French battle-fronts because stockings begun with enthusiasm last somewhere between heel and toe. There is many a family wherein the meatless meal, or wheatless meal, never survived beyond its second weekly birthday. There are many sorts of saving enthusiastically undertaken for the good of the cause, which have failed of great accomplishment because in fact the undertaking person did not appreciate that it was an important thing.

All along since the United States entered upon this war, there has been too much of an undying, comfortable conviction that after all we were not to get in deeply. Our men might get ready, but they would not cross over seas. They might cross the Atlantic, but they would never see the trenches. They might attain the trenches, but somehow they would not be obliged to fight. It is time that such an idea found dislodgement. It is a real war we are engaged in, we are in it as much as anybody and are bound to see it through. The making of gardens, the harvesting of the little crops there grown, the many denying themselves luxuries that formerly seemed necessities, are not spectacular, they are not large in the public eye; nor is the woman knitting by her fireside an upstanding feature of the conflict. But every one of these is a factor in bringing not only this war but all warfare to an end.

And in this respect they are important things.

One of life's great moments: Getting the overcoat out of the mothballs and finding carfare and a package of cigarettes in the pocket. — [Rutland Herald.]

Bernstorff's request for \$50,000 with which to "influence congress as before," indicates that it was no new business that he had in contemplation. — [Atlanta Constitution.]

The high price of milk is attributed to the high cost of fodder. Why can't the cows do as well as the people and be contented with the cheaper cuts of grass until times are easier. — [Rochester Post-Express.]

Grand Rapids pays a monthly prize to the city employee who suggests the best method of saving money to the taxpayers. How big a prize should go to the one who suggests reducing the number of city employees? — [Cleveland Plain Dealer.]

South American unity against German ambitions and policies suggests something more than a determination to resist lawlessness at sea. Another great continent, rich in its own right, is not going to pay any indemnities either. — [New York World.]

Germany plans to exact from the United States \$37,000,000,000 of war indemnity, says Chauncey M. Depew, who adds that the report to that effect is current in Germany and France. There are some things that are dearer even than fighting. One is getting licked. — [Buffalo Express.]

While there is nothing especially heroic about buying Liberty bonds, it is almost the only thing that a very great number can do. When we buy them through saving and the prevention of waste, we help doubly to win the war, for we save food, that is necessary for our own people, our own soldiers and our allies, and we permit our government to use the results of this saving in prosecuting the war. — [Utica Observer.]

Ministers' wives are supposed to have it a little bit harder than the wives of men engaged in other professions. The wives of Methodist ministers in Ohio think that is true.

Because of the lack of freight cars hundreds of Methodist ministers in that state are unable to move their household goods to the new churches recently assigned them by three conferences. In many instances the furniture is scattered along the railroads, lying on sidings, and the ministers' families are doing the best they can under the circumstances. — [Utica Press.]

Farmer A—"Has that boy of yours you sent away to college got his degree yet?" Farmer B—"I should say he has. Why, he wrote last week that the faculty had called him in and given him the third degree." — [Boston Transcript.]

"Don't you feel sorry for a fellow that has to stay in jail," said Meandering Mike. "Only for one of them," replied "Budding Pete," an' that's the warden. He's the one that has to work all day makin' the prisoners comfortable an' happy an' then sit up all night fightin' the politicians that want to throw him out of his job." — [Washington Star.]

It is upsetting to have a federal judge in the far west decide that a school teacher does not belong to a learned profession. Yet the world will continue to go to school for its "learnin'" if not for its learning. — [Springfield Republican.]

Germany is the true practitioner of internationalism. Her spy system knows neither friend nor foe. Her plottings cover the globe. The arrest in Paris of Bolo Pasha, on important information received from the United States, reveals once more the intricacy and the extent of German intrigues. Belligerents are attacked through neutrals, neutrals themselves are plotted against; everywhere the web of lying, of fraud, of murder, is spread for its victims. — [Philadelphia Public Ledger.]

WITH THE BOYS AT CAMP DEVENS

William I. Rife Writes Interestingly of Camp Experiences.

In a personal note to the editor of The Star, William I. Rife, who left for Camp Devens with the Oneonta contingent a week ago and more, writes as follows:

Copies of The Star have been received and I can assure you they are appreciated by the boys. The camp is located about two and a half miles from Ayer, 35 miles from Boston and 22 miles from Lowell. Ayer is a place of about 500 people. The camp is composed of about 40,000 men and they are divided into companies of about 200 men each. Each company has "barracks," which is one big building. The sleeping quarters are on the second floor and we all sleep in one big room. It looks a whole lot like a hospital. Down stairs is the men's hall, the recreation room and the officers' room. We all line up for meals and march in and each gets his portion. In the recreation room is a pool table, books to read and a Victrola.

We are required to arise at 5:45 a. m. and drill on and off all the day, Saturday is inspection day and all we have to do that day is to stand for inspection in the forenoon. The afternoon we have off. Sundays we sleep one hour later in the morning and have the day off.

The meals, though plain, are very good, and we consider, taking it as a whole, that it is good and could be a whole lot worse. They surely try to do all they can for the boys.

We have a number of recreation Y. M. C. A. buildings scattered about through the camp, where writing material is provided and comfort is found. They give a moving picture show in them every night. They certainly are great institutions and everybody appreciates them.

We are required to be in bed every night by 10 o'clock. The boys are all right and they all report themselves all getting along nicely. Regards to all the boys.

The Trip to Ayer.

Or the trip to Ayer, Clarence L. Slade, writing to his father, says:

"We reached here about 3:30 p. m. on Saturday, after a long, weary ride. The distance is about 260 miles and we were very late. At Pittsfield the train was split in two and a baggage car placed between the two parts and we went thence for our package lunch. That was all that we had to eat until about 11 p. m. and then we were hungry, believe me.

"After reaching Ayer we were obliged to wait about a half hour before starting, and then we had frequent halts, but finally reached the camp. Coming up here the lights in the barracks look like the pictures of the waterfront of a city at night.

"We were first marched up-stairs a our barracks and assigned to a bunk or rather a bed. They are black iron beds with good springs and a straw mattress. After this we were chased down stairs and given a field mess kit, three blankets and a poncho. The poncho can be either used for a sleeping bag, a mattress when in the field, or as a rain coat. The field mess kit we used for several days for our meals. New meals are served under a different system.

"We have been shot in the right arm for typhoid and also vaccinated in the left and sore arms and some sickness followed.

"Tell any of the next bunch to come to bring their stuff in a dress suit case. They probably could bring many more things than I did, but a couple of shirts will be needed. It will probably be a week or more before they get their uniforms, as we have not received ours yet."

Ethiopia.
Ethiopia was described by the Greeks and Romans as the country which lay to the south of Egypt. Shortly before the birth of Jesus a native dynasty of women holding the official title of empress held sway in Ethiopia and even resisted the advance of Roman arms. One of these is the queen noticed in Acts viii, 27.

AMERICAN WOMEN WAR FARMERS

In the foothills of Cobb county, Georgia, lies the little town of Vining. It has proved itself almost 100 per cent patriotic, because all the able-bodied men of this little community have enlisted. This condition of affairs has made it necessary for the wives and daughters left at home to do the farm work and gather the crops. They wear the mannish overalls, working with a will during their farming operations.

THAT SERVICE CHARGE FOR GAS

CITY ATTORNEY ADVISES AGAINST ITS PAYMENT UNTIL RULING IS MADE.

Common Council Advised That Hearing Cannot Be Hastened Pending a Decision of Same Question Raised in Other Cities—Plans for New City Ambulance.

At the meeting of the common council, held last evening, after the other business had been transacted, there was a prolonged discussion of the service charge of the Oneonta Light & Power company of 50 cents per month to all customers, following an inquiry relative to the complaint which Mayor Ceperley filed relative to this charge and the request for a hearing. As previously reported in these columns City Attorney Becker reported that the matter was in the hands of the Public Service commission, that it could not be hastened. He stated that the Public Service commission had communicated to him this week again that the complaint was on file and had been referred to Commissioner Irvine. The latter has several hearings scheduled where the same points are involved in cities of similar size about the state and he has advised that the hearing upon the complaint from this city be deferred until a ruling has been made for other cities and this may be accepted without a prolonged hearing upon Oneonta's individual case.

Mr. Becker explained that he has endeavored to secure an early ruling upon the Oneonta appeal but the commission, which has much work ahead, cannot press to an early hearing with other hearings scheduled. He emphasized that the city is doing all that it can do and must bide the pleasure of the commission. He expressed doubt of the ability of the company to enforce collection of the service charge until it has been approved by the commission and hinted strongly that he is advising those who consult with him to pay for gas consumed but to withhold payment of the service charge. In accordance with the remarks of Mr. Becker, Mayor Ceperley publishes in this issue a statement of the case and individual customers of the company must decide for themselves. So far as is known the lighting company has not refused checks with no remittance for the service charge included.

Approve Ambulance Plan.
The council also approved by resolution a plan suggested by the united labor organizations of the city that the latter purchase a modern motor driven ambulance and the same be maintained at the Municipal building and drivers be provided at the city's expense, the same to respond at all hours of the day and night to emergency calls promptly and the administration and control of the ambulance and the rules regulating its use be in the hands of a joint committee named by the city government and the labor organizations. It is thought that arrangements can be made for members of the fire department to operate the ambulance. If this is not found feasible after conferring with the fire commission, then some other plan will be adopted.

Messrs. Young and Bruce, representing the labor organizations, were present and stated that the general committee had referred the project to the various organizations for ratification and that a meeting is to be held on Wednesday evening, October 10, at which the project will assume tangible form and the active campaign for the funds inaugurated.

Other Business Transacted.
The reports of the city chamberlain, commissioner of charities and sealer of weights and measures for the month of September were read and after examination by the members were ordered filed.

Petitions for incandescent lights at the corner of East street and Mickle place and at the corner of East End and Chester avenues were reported favorably by the light committee and they were ordered placed.

Mayor Ceperley reported that twice the city has advertised for coal bids with no response and that the supply of coal is running low. The house committee was instructed to purchase the needed coal at its discretion and at the best price obtainable, quality considered.

The council then adjourned. Those

WEATHER FOR SEPTEMBER.

Temperature, Rainfall and First Autumn Frosts in Oneonta.

The record of climatic conditions kept at the Oneonta meteorological station at The Star office for the United States Department of Agriculture, shows that in the month of September, just ended, there were three rainy days, 31 clear days and with six others partly cloudy. The rainfall for the month was very light, being only .86 of an inch altogether, and of this .55 of an inch fell on the eighth. Fortunately, however, in this section, the previous rainfall had been so great that no crops suffered from the slight precipitation.

The maximum temperature for the month was 88 degrees on the fifteenth, and the minimum was 31 degrees on the eleventh and twelfth, on which days there was in some places a killing frost. The greatest daily range was 43 degrees on the fifteenth and nineteenth. Altogether the condition of crops has not been greatly affected as yet by frost, and with favorable weather, which now seems probable, the crops of the year should in abundance be gathered in.

The X. M. C. A. Thrift campaign starts today. A responsibility rests upon everybody.

FOCAD MENTION.

—S. G. Camp has purchased of the Walling Land company the double house situated at the corner of Valleyview and Seventh streets. Immediate possession was given.

—Captain F. M. H. Jackson having returned from duties at Croton lake resumes his duties at The Star office today.

—E. R. Barnes, the new janitor at the Municipal building, is putting the building in good condition after it having been for three weeks without a janitor in charge.

—The pressure canner was busy yesterday in the Rockwell block, mostly in the canning of pears, with a sprinkling of the late vegetables. The canner will be open again on Friday.

—George D. Taylor of Stamford was a business caller in this city yesterday and purchased a 1918 model Studebaker six cylinder roadster of the Stevens Hardware company, Inc.

—Oneonta will send a goodly delegation to the Morris fair today, the weather continuing favorable. The roads are reported in good condition and the country in beautiful fall attire.

—The Star received yesterday several refund checks from donors to the Company G Relief fund, with the request that the money be forwarded to Our Boys in France Tobacco fund. This is a wise disposition of the money and it certainly could not be continued on its mission of cheer in a more fitting way. What about your refund check?

—Members of Canton David Wilber, who have not gone to Binghamton earlier to attend the State cantonment, leave this morning either by motor car or on the 8:20 train to participate in the grand parade to be held today. Numerous members and several Rebekahs were in attendance at the grand ball and the decorations at the state armory in that city last evening.

SHERMAN LAKE HOTEL BURNS

WITH ESTIMATED LOSS OF TEN THOUSAND DOLLARS.

Blaze Started While Family Was at Dinner in Basement — Flames So Fierce That Practically Nothing Was Saved — Mrs. Sherman Loses Five Hundred Dollars in Money—Insurance Small.

While Dan Sherman and family were at dinner yesterday in the basement rooms of the large building used by him as a hotel at Sherman lake, fire started in some unknown manner and before discovered had gained such headway that practically nothing was saved. The building was burned to the ground, and with it all its contents, including furniture, all the family apparel save what they were wearing a valuable Masonic locket set with diamonds and valued at \$250, which was the property of Mr. Sherman, and the sum of \$500 in bills belonging to his wife. The only things saved were a trunk and traveling bag in which were part of the theatrical costumes of the Dan Sherman company. Mr. Sherman estimates his loss at \$10,000 with a light insurance, the exact amount of which could not be learned last evening.

The season at Sherman lake ended a few days ago, and ever since the family had been busy in preparations for departure. The furnishings were stored for the winter, and yesterday the preparations were practically completed. At noon the family sat down to dinner in the dining room in the basement, and when they arose and went out of doors they found the whole upper part of the hotel ablaze. As the telephone was on the floor above, it was impossible to give alarm by it, and Mr. Sherman ran his auto to the Davenport Center Methodist Episcopal church, where men were at work, and gave the alarm. They responded at once but were too late to save the hotel, which by 2 o'clock, was in ashes.

By the aid of these men, however, it was possible to save the old house situated near the hotel, and also the pavilion and other near-by buildings. The property, which was formerly called Strader's lake, was later known as Talmadge lake and the hotel and summer business were conducted by Talmadge Brothers. About six years ago Clarence Talmadge, now of Preble, this state, sold the property to Mr. Sherman, who rechristened it Sherman lake, erected new buildings and camp houses and made many other improvements. Under his charge the place has prospered, and besides the current individual patronage, many picnics, family gatherings and conventions have been held there each summer. As Mr. Sherman could not be reached by phone last evening, it is not possible to give his plans for the future, but there is little doubt that the energetic owner of the property will see that everything is ready for the June opening in 1918. The loss to him is a heavy one, and his numerous friends will sympathize with him in his misfortune.

Mr. Sherman and family are to open for the winter circuit in a few days in Detroit, Mich., after which they will travel extensively through the south and west. All who know the genial Dan will not only hope but confidently expect to see him back to the lake again next summer with more and greater attractions than ever.

ONEONTA WOMAN'S CLUB.

Chooses Delegates to State Convention—New Members Elected.

At the semi-annual meeting of the Oneonta Woman's club, held in the club rooms on Chestnut street last evening, delegates and alternates were elected to represent the club at the annual meeting of the State Federation of Women's Clubs, to be held in Albany on the week commencing November 12. The delegates elected are as follows:

Delegates—Mrs. Dorman Baldwin, president; Mrs. O. A. Miller, Miss Ethel Satchard and Mrs. W. H. Wilson.

Alternates—Mrs. A. S. Morris, Mrs. Daniel Luce, Mrs. W. J. Bolton and Miss Jennie M. Fairchild.

At the business meeting there were also eight ladies elected to membership in the club, the new members being Mrs. L. S. Darling, Mrs. Mary E. Beals, Mrs. Burton Todd, Mrs. C. E. Westervelt, Mrs. L. R. Holley, Mrs. E. M. Johns, Mrs. John Graney and Mrs. Frank McFee.

What Thrift May Do.

Twenty million families — the big consolidated family of the United States—each needlessly burning one single match a day, at the price of five cents a dozen boxes—only one match wasted to a whole family—is the equivalent of burning down every year a house worth half a million dollars. There is the light that is left burning when not needed. There is the fire flaming under the empty kettle. There is the good food swept neglected from the table. There is the farm implement, the artisan's tools, the household utensil, misused and damaged, in all varieties there is waste by nearly all the units—and the aggregate is immeasurable.—Munsey's magazine.

Thrift is submission to discipline, self-imposed. Thrift is denying one's self present pleasures for future gain. Thrift is the exercise of the will, the development of moral stamina, the steadfast refusal to yield to temptation.—[S. W. Strauss.

Dairymen's League Meeting.

A meeting of the Dairymen's league has been called for Thursday evening, Oct. 4, at Davenport. This meeting is called for the purpose of discussing a co-operative milk plant and other matters of importance. Each member should be present, as matters rest with you as to the future existence of the dairy business. By order of Henry C. Fox, President. advt 21

TODAY IS SCHOOL DAY.

In the Thrift Campaign Which is Officially Launched Today.

The Thrift campaign, which is officially launched today under the direction of the Y. M. C. A., has already attracted much interest in the city.

Many advertisers in The Star have caught the spirit of the project and are directing their efforts and thoughts toward a furtherance of the scheme.

As has been previously outlined in this newspaper, Thrift is one of the essentials toward success. No matter in what profession, trade or calling it must prevail.

To the end that the subject can be brought intimately to the minds of the people of this city, speakers have consented to make brief addresses in the schools, in the factories and the railroad shops and the moving picture houses of the city will exhibit a thrift film today.

Today is school day and the following speakers will present the subject of thrift: Academy street school, Dr. J. C. Russell, 8:45; Chestnut Street school, Colonel Walter Scott, 9:00; River street school C. E. Westervelt, 9:00; East End school, S. H. Potter, 9:00.

Thursday is "Savings and Building and Loan" day. The following will speak: S. H. Potter, Riverside Manufacturing company; Hon. Charles Smith, Gloversville Knitting company; Edward Crippen, Kayser company; Charles B. Westervelt, Buckley Brothers; Colonel Walter Scott, D. & H. shops; W. I. Bolton, D. & H. round-house.

In the first four named, a fifteen minute talk will take place beginning at 1 o'clock. In the railroad shops the addresses will begin at 12:30 and last 15 minutes.

SERVICE CHARGE FOR GAS.

Mayor Ceperley Thinks It Cannot Be Collected at Present.

To the gas consumers of the City of Oneonta.

In answer to numerous inquiries regarding the service charge of 50 cents per month to all gas consumers by the Oneonta Light and Power company, I desire to say, about August 1, 1917, the company announced to its patrons that commencing Sept. 1, it would make a service charge of 50 cents per month in addition to the amount charged for gas used. On the 17th of August a complaint was filed by me with the Public Service commission, second district, asking that the commission investigate this proposed service charge and restrain the Oneonta Light and Power company from collecting the same. On Sept. 6 an answer was filed by the company claiming its service charge was reasonable and just. We requested the Public Service commission for an early hearing, unless the company withdrew its service charge. The company has recently sent to its patrons bills for the September service charge. The city attorney informs me that it is his opinion that if the bills for gas consumed are promptly paid the service charge cannot be collected by the company unless the Public Service commission determines the question in its favor and that the patrons of the company are within their rights if they refuse to pay this charge until final determination of our complaint by said commission.

It is the intention of this administration to force this issue to a speedy and, if possible, a favorable determination.

Andrew E. Ceperley, Mayor.

Men Wanted for Service at Croton Lake.

In accordance with orders from the adjutant general that men with dependents be relieved from active guard duty and their places filled by others who are able to give continuous service, five non-commissioned officers of the headquarters company of the First Provisional regiment will return to Oneonta within a day or two. They are Supply Sergeant F. J. McFee, Regimental Mess Sergeant W. H. Yates, Sergeant Julian B. Jackson, Corporal Earl Merrill and Cook Charles Sigbee.

To fill places vacated by these men it is desired to send a like number at once. Only men who will sustain the excellent reputation held by the company which left here as Company G of the New York Guard will be considered. All who can volunteer to do their part of this public duty will do well to call on Captain Jackson at once, as it is desired to send the men on at once.

Encourages Little Fellows in Oneonta.

If there is a city in New York state that would be benefited by a thrift week, it is Oneonta. For 29 years many thoughtless people have seen others no smarter and with no better advantages place small monthly amounts of \$1 or more at six per cent compound interest and have thus seen them accumulate these small amounts to several million dollars through the safe six per cent compound interest system of the Oneonta Building and Loan association, which is protected by state laws, same as savings banks. The association has been a thrift educator. advt 11

Very smart and nobby are these recently received models. Especially American in their practical and trim tailored lines—fashioned with an eye to durability and the storm and strife of Fall and Winter months. Fabrics are finely woven—Tussah, Panama and Serge. Colors: Black, Blue and Grey. Prices range \$5.50 to \$12.50, and with a complete range of sizes which include small, regular, also the stout sizes.

A shipment has just come to hand, of Black Satin Skirts, also a number of Ultra-Fashionable Plaids.

Magnificent Showing of Fall Dresses

Our showing in this department is so varied in style thought that every taste is met.

Charming creations in Georgette Crepe, Silks, Satins, Serges, and other new Fall weight materials in a galaxy of new shades and colors.

Many of the season's gowns and dresses are remarkable in their simplicity; trimmings are used sparingly, but effectively.

In street dresses, the tailored finish and straight line, silhouettes are among the striking new features. Many are high waisted empire style, while the princess style is being revived, though not tight-fitting.

Truly our display of these garments splendidly forecasts the season's styles-to-be.

Prices \$10.00 up to \$59.00. An exceptional assortment at \$16.50.

Oneonta First Baptists Go in Machines to Hear Parsons Brothers.

One hundred people, members of the congregation, and their friends of the First Baptist church, in nine big auto trucks and a large number of automobiles, went to Milford last night to attend the evangelistic services being held there by the Parsons Brothers.

The Parsons, who held similar services in the local church last spring, had an audience that filled the church, main floor and gallery, to overflowing. The meeting was good. A large chorus choir, augmented by the Oneontans, was effectively led by Edward Parsons, himself a singer. Harlow Parsons preached, while Mrs. Harlow Parsons played the piano.

The special services are being held every night of the week and will not end until Sunday, October 14.

TAKEN TO ORPHANAGE.

Deuel Boy a Bright Lad and Needs a Home.

Yesterday, while Chief Blizard was conveying Mr. and Mrs. Charles Deuel to the county jail, because of inability to secure bonds that they would care for their little son, the latter was being taken to the orphanage at Cooperstown for care and treatment. Mr. Coliar was favorably impressed with the little fellow and thinks him a bright, courteous lad, who, with favorable training, would give a good account of himself and clear the disgrace upon the family name. It's a pity that a good home cannot be found and some arrangements made for his legal adoption. The parents are, it is feared, beyond hope, but the lad can be saved to society and the nation. SALTS FINE FOR ACHING KIDNEYS

We eat too much meat, which clogs kidneys, then back hurts and bladder bothers you.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Judd Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it is no longer irritating, thus ending bladder disorders.

Judd Salts is harmless, inexpensive, makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Judd Salts to folks who believe in overcoming kidney trouble while it is easy trouble.

Iron Is Greatest of All Strength Builders, Says Doctor

A Secret of the Great Endurance and Power of Athletes

Ordinary Nourished Iron Will Make Delicious, Nervous, Iron-rich Food For Cent. Stronger Than Many Cases.

New York, N. Y.—Most people foolishly seem to think that iron is going to get renewed health and strength from some stimulating medicine, secret nostrum or narcotic drug, said Dr. H. Sauer, physician, who has been practicing widely in both this country and great European medical institutions, when as a matter of fact, real and true strength can only come from the food you eat. But people often fail to get the strength out of their food because many have iron deficiency in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong but they can't tell what, so they generally commence doctoring for stomach, liver or kidney trouble or symptoms of some other ailment caused by the lack of iron in the blood. This thing may go on for years, while the patient suffers untold agony. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nourished iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while, double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles.

OPENING DAY OF MORRIS FAIR

BASE BALL GAME WON BY SIDNEY OVER CHADWICKS 4 TO 3.

Entries in All Departments Large and with Good Places and Special Attractions—Favorable Weather Is Expected to Bring Large Crowds.

Morris, Oct. 2.—The Morris fair, the fair that is all fair, opened with the usual good crowd for the first day and there was a constant procession of exhibitors with cattle, sheep, swine, poultry, vegetables and canned goods, needlework and products of the household being taken to the grounds. The weather has cleared and tonight the country dirt roads were in fine condition for motoring or driving to the fair.

The chief attraction of the first day was the ball game for a purse of \$50 between the Sidney team and the Chadwicks, the famous semi-professional team of the Mohawk valley, the former team winning by the score of 4-3 in an interesting and closely contested game. Each team made five hits, Sidney stole six bases to their opponents five and the Sidney pitcher struck out 16 of the Chadwicks, while the Chadwick twirler was able to make but eight of the Birdville denizens fan the air. The score by innings was as follows:

Chadwicks 0 1 1 0 0 0 1 0—3

Sidney 0 0 1 0 1 2 0 4—4

There were numerous special prizes set aside for individual plays aggregating some \$24, all of which went to Sidney players, the longest hit being made by Hanley of that team, which netted him a home run. C. E. Bird of Sidney umpired the game to the satisfaction of all.

Another interesting event of the day was the green race in which were started only horses which had never been entered in a race before. Fox, owned by H. Light of Morris, took first money, taking the two heats. Laura L., owned by M. Lewis of Burt, took second in both heats and took the property of F. Boyce of New Lisbon was third in both. The time was 3:00 and 2:56.

On Wednesday the 2:10 and 2:30 races will be run, in both of which purses of \$200 are offered and some good horses are entered for both events. The floral parade will be given both Wednesday and Thursday and will be judged on the final day. The special attractions include Phil's trained bears and other good features.

HOW UNCLE SAM TRAINS FLYERS

Student Aviators at Mineola Field Learn to Worry the Germans.

SOME TESTS OF SKILL SHOWN

Men Go Up About Half Mile, Then "Slide" Down at Sharp Angle—And, Say, This Is No Job for Nervous Man.

Mineola, L. I.—While hundreds of thousands of men in America are learning how to jab bayonets through German soldiers in a leisurely manner, some of the most promising emeryo officers of the American forces are here learning how to destroy Boche birdmen. To judge by their training, they will do the job both efficiently and quickly.

Under the direct supervision of Bert Acosta, one of America's most successful civilian aviators, scores of candidates for commissions in the aviation section of the Army Signal corps are being taught to extricate themselves from the most dangerous positions imaginable while several thousand feet from the ground.

For military reasons it is forbidden for details of the fighting instruction for aviators to be made public. Here however, is an illustration of the dangerous situations the aviators are being put through:

While about two thousand feet above ground, with the machine going nearly straight up, let her quietly slip backward and downward, tail first, for 75 or 100 feet, then get the machine under control again, go up still higher, and try it once more.

It's quite easy—that is, it is easy to watch Bert Acosta or Edward Holtzman, his first assistant, pull it off. All you have to do is to let the machine drop backward and downward until you feel that you have gone far enough, then pick up speed and make her go upward again. Simple!

Another simple little test of your skill as an aviator is to ride up 2,000 or 3,000 feet, then come down in a spiral, with the wings of the machine almost vertical. Acosta recommends this for nervous persons.

Notwithstanding the apparent recklessness of the flyers, each "stunt" is carried out in an absolutely scientific manner. Instead of courting danger for "the fun of it" the aerial movements are carefully planned with the factor of safety always being among the first things considered. Nothing is undertaken for exhibition purposes except to demonstrate how to escape death over the battlefield.

"To fly around putting the machine at all kinds of angles and going through all the manipulations may appear silly and dangerous," Acosta said, "as a matter of fact, it is the only safe thing to do when you are above an enemy's battlefield."

"Infantry officers in our training camps are telling their men that if ignorance courts death, in a battle with bayonets. In the aviation service ignorance is certain death."

High in the ranks of the men seeking commissions in the aviation corps stands Capt. Cushman A. Rice, veteran of half a dozen wars on the American continent and a former member of the general staffs of three brigadier generals of the American army.

Captain Rice, "The Cuban Millionaire," made a fortune in Cuba following his resignation as a captain of infantry in the regular army in 1902. He is temporarily a sergeant in the corps of men slated to receive commissions. Recently he told how it feels when you make your first flight in an airplane.

"When Mr. Holtzman, who was driving the machine, and myself were gliding along about 1,200 feet up, for some unaccountable reason I felt a strong desire to leave my seat and walk out on one of the wings to learn how it felt out there. I don't know why it was, but I felt that desire so strongly for about ten minutes that I almost had to go."

"Really you feel quite safe and secure, no matter how high you go, when you have confidence in the man driving the airplane—or when you are driving it yourself, if you really understand running it. Everything is so new and different way up there that you do not have time to think of being afraid."

Captain Rice will be among those whose time to go to France is rapidly approaching.

Captain Rice stands out as a man who took the hard road to a commission, although he could have had one without working for it. Notwithstanding the fact that he could have become a lieutenant colonel of infantry, because of his military record, he chose to enlist in the aviation corps and work for his commission, which he will receive at the end of the regular five months' training period. His military record includes participation in three Latin-American revolutions, the Spanish-American war as a captain in the regular army, the Philippine campaign in command of a detachment of mounted scouts and service in China.

A number of candidates here are awaiting commissions, which have been authorized, and will shortly leave for France to go into the last stages of their training over there. Additional candidates from the various ground schools will replace them.

See, Honesty Does Pay.

Parkersburg, W. Va.—Theodore Van Kirk found a package containing \$5,000 in the street near his home. On investigation he learned that the package had dropped from an express wagon and belonged to a man in Baltimore. When he took the money bundle to the express office he was rewarded with 25 cents for his honesty.

Captain of Emden Escapes British Prison, But Is Recaptured

CAPT. MULLER.

Washington, Sept. 28.—According to advices received here, Captain Muller, who commanded the German sea raider Emden, and twenty-two associates, including Lieutenant Theodor, tunneled their way from a British prison camp in England.

Nine of the prisoners were recaptured, including Captain Muller and Lieutenant Theodor. The latter made three previous escapes. With Lieutenant Emil Thelmann, another of the recaptured prisoners, he fled from the detention barracks at Chelmsford last May. The Germans made dummy locks of cardboard, substituting them for the locks on the cell doors. Dummy figures to deceive the sentry were made from bedclothes and some of their own clothes. To make these figures more realistic they were decorated with shocks of hair from their mattresses.

ALLIGATOR FOUND IN SEWER

Employees of Pittsburgh Bureau of Highways and Sewers, Pulls Out 3-Foot Saurian.

Pittsburgh.—The North side has been famed for many things. Now it is the habitat of the alligator.

If you don't believe it, ask George Moul, a perfectly reliable employee of the Bureau of Highways and Sewers. He has the proof on exhibition at his home in Lockhart street. He got it yesterday when he was sent to fix a sewer in Royal street.

He had lifted the manhole and was prodding to remove the obstruction, when a strange face, with rather evil-looking eyes, bobbed in his range of vision.

After the first shock Moul grabbed the head and drew forth a 3-foot alligator. He got a rope and led it to his home and is trying to dope out how the Florida native got this far North.

VANITY CASES FOR NURSES

Red Cross Lassies Going to France May Beautify Themselves to Heart's Content.

New York.—Red Cross nurses going to France to do their bit, as arduous as the soldier in the trenches, are not being forgotten in the distribution of "small bundles of comfort." The army and navy field comfort committee is planning 10,000 special "vanity" cases for the nurses who will serve with the American troops. The articles which will be contained in the cases are:

One bottle toilet water.
One cake toilet soap.
One tube talcum powder.
One tube dental paste.
One tube toilet cream.

One vanity box, with mirror, etc. Though the retail value of the cases would almost double the amount, the nurses' boxes are packed at a cost of one dollar.

The Farm and the City.

The farmers can advance only along with the city, not against it. Their earnings rise in proportion as those in the city earn more. That is the Alpha and Omega of agricultural policy. It is the crowd of laborers' children that make milk production pay. It is the city's meat eaters that buy the farmers' hogs. If business in the city is sick, the farmers' market is dead. If that business prospers, they both live. A great common breath breathes through the whole body of the people. It is this union of interest that liberalism represents.—Friedrich Naumann.

VINOL MAKES WEAK WOMEN STRONG

Positive—Convincing Proof

We publish the formula of Vinol to prove convincingly that it has the power to create strength.

It Cod Liver and Reef Peptones, Iron and Manganese Peptones, Iron and Ammonium Citrate, Lime and Soda Glycophosphates, Lecithin.

Any woman who buys a bottle of Vinol for a weak, run-down, nervous condition and finds after giving it a fair trial it did not help her, will have her money returned.

You see, there is no guess work about Vinol. Its formula proves there is nothing like it for all weak, run-down, overworked, nervous men and women and for feeble old people and delicate children. Try it once and be convinced.

EVEN CROSS, SICK CHILDREN LOVE SYRUP OF FIGS

If feverish, bilious, constipated, give fruit laxative at once.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeiters sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

ALL MEN AT HOME SHOULD PREPARE FOR WAR

The first test a man is put through for either war or life insurance is an examination of his water. This is most essential because the kidneys play a most important part in causing premature old age and death. The more injurious the poison passing through the kidneys the sooner comes decay—so says Dr. Pierce of Surgical Institute, Buffalo, N. Y., who further advises all people who are past thirty to preserve the vitality of the kidneys and free the blood from poisonous elements, such as uric acid—drink plenty of water, sweat some daily and take Anuric, double strength, before meals.

This Anuric is a late discovery of Dr. Pierce and is put up in tablet form, and can be obtained almost any drug store. For that backache, lumbago, rheumatism, "rusty" joints, swollen feet or hands, due to uric acid in the blood, Anuric quickly dissolves the uric acid as hot water does sugar. Take a little Anuric before meals and live to be a hundred. Send 10 cents to Dr. Pierce for trial package of Anuric.
